INTRODUCTION

Adding a New Development to PropertyPal is slightly different from adding a single re-sale property.

Firstly you will need to add the Development Overview which will show on the New Homes Section of the website, then add the Property Types which will show on the Property for Sale section of the website. And finally the individual units or sites, which will show within the property types on the Property For Sale section of the website.

While this seems like a lot of work, it should actually reduce your work, in that the units take approximately 10 seconds to add, instead of the more traditional method of listing each unit as an individual property!

This document will guide you through the process of adding a New Development from scratch, along with how to edit a development.

If you still have queries that are not included here please do not hesitate to contact our Support Team on the details below:

ADD A NEW DEVELOPMENT

1. After Logging in to PropertyPal.com. Click on Developments tab at the top of the page, this will open the Development List page.
2. Click on the "Add a development" button at the top of the page. This will open the Select a Developer page.
3. Select your developer from the drop down list. If your chosen developer is not on the list email developments@propertypal.com with the details and we will add it for you. Click Next.

If the developer you are working with is small or doesn't want his name showing on PropertyPal, please use Private Developer or Undisclosed Developer.

4. Sole Agents

If you are a sole agent on this development click the Add New Development button and move to step 6.

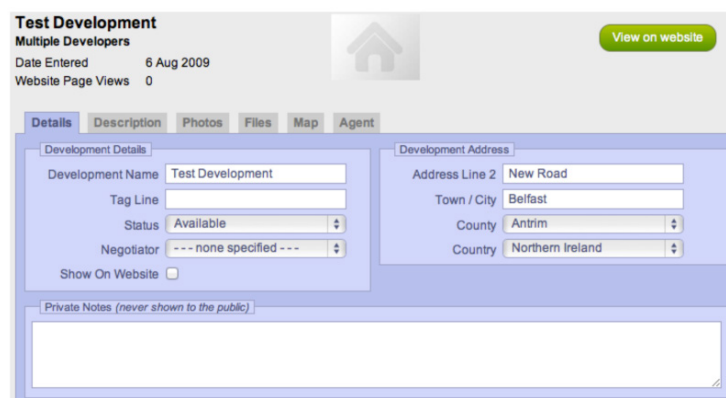

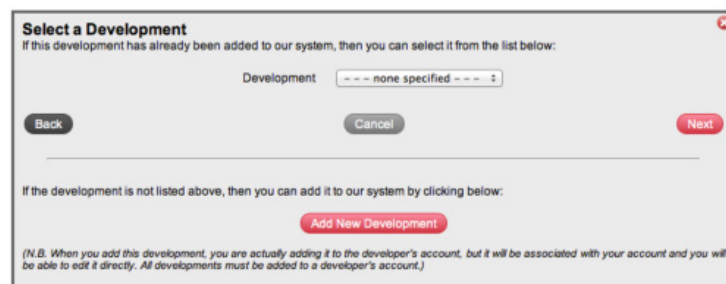

5. Joint Agents

If you are a joint agent on this development, use the drop down to see if the development has been added by the other agent. If this is the case, click on your chosen development and click Next. You have been added as an agent to this Development!

Note: You may want to check the description and photos as the initial agent may be advertising their name and not yours on the development.

6. Fill in the details of the Development. Please note that this is the description of the whole development, and not of individual properties. When this page is complete, click Next.

Note: Neither the Tag Line nor the Negotiator are necessary fields, please ignore these.

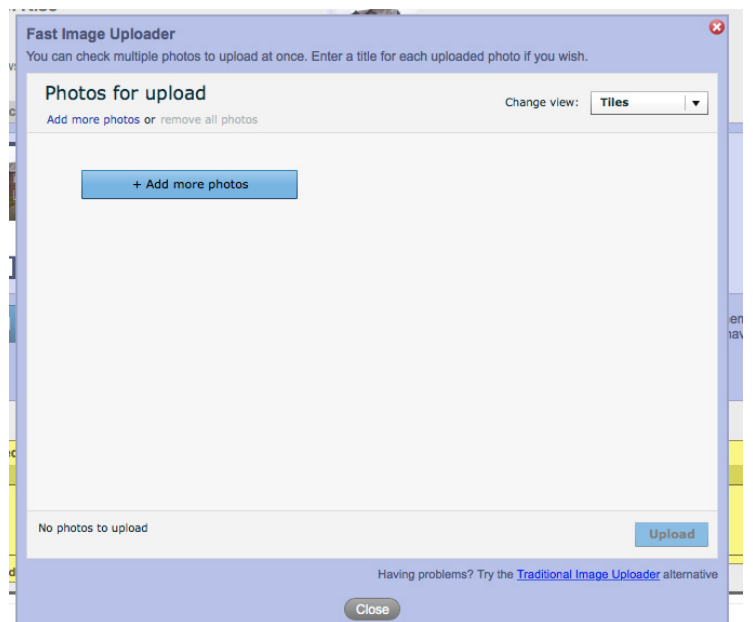

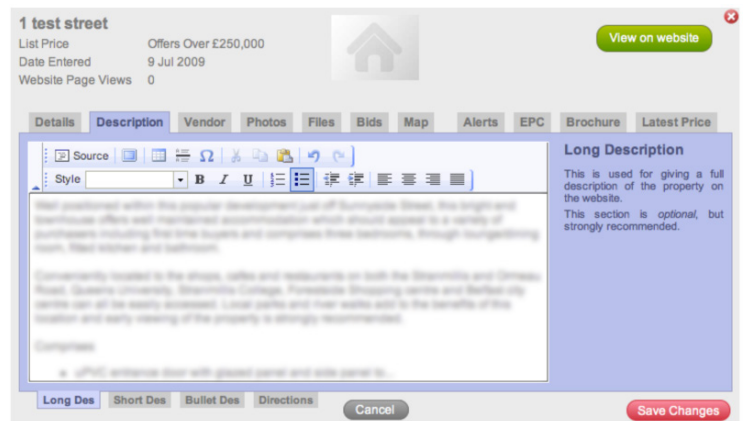

ADD A NEW DEVELOPMENT

- The following page is the development overview description. This is a free text box which allows you to type directly into the box or to copy and paste text from another document. When you are happy with the layout etc, click Next.

TIP: It may be easier to use CTRL & V instead of right clicking to paste.

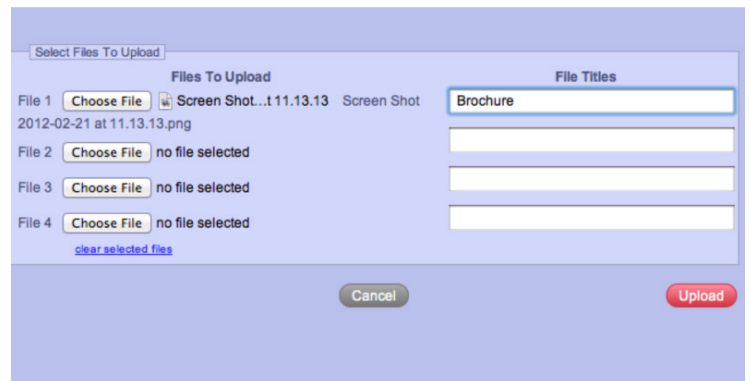

- To upload photos of the property click on the Upload Some Photos button. This will open a pop up for the Fast Image Uploader. Click on + Add more photos, then locate the relevant file where the photos are stored. You can either double click on a photo to upload it or, if you are uploading several photos, hold down the shift key on your keyboard and click on multiple photos. Once you have made your selection (as many photos as you like) click Upload. This will re- size the photos appropriately.

- Once the images are uploaded you may find that they are not in the order that you would like them in. To re-order them you simply drag and drop them into the correct order. Please note that the Primary image is the first image that will be seen on the website. When you are happy with the order, please click Next.

ADD A NEW DEVELOPMENT

10. The Files page is where you will upload PDFs of the brochure of the Development or any relevant floor plans. This is not a mandatory item. To upload, simply click on the Upload PDF Files. This will open a window where you can choose your files. You will be required to specify names for these files when uploading. Brochure, or Floor Plan, etc will suffice.

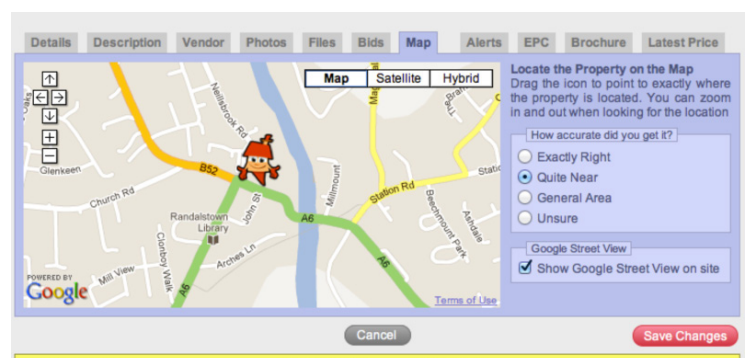

11. We move on then to the Map screen. When we entered the Town for the development on the Details screen a marker was placed on the map corresponding with this town.

To adjust the marker, simply zoom into the map using the + button and drag our mascot to the exact spot. You will then need to rate how accurate you are with the marker! To do this simply click on the relevant accuracy rating on the right hand side of the map.

You may find it easier to swap the view on this screen to Hybrid view which shows the roads and a satellite view of the terrain. To switch to Hybrid view simply click the Hybrid button on the top right hand side of the map.

12. You can also choose to turn off Google Street View on PropertyPal.com. This is especially important if the vendor does not wish this to be shown. To turn it off simply un-tick the Show Google Street View on site box. Please note that we are unable to turn Google off, this will simply not show Street View on PropertyPal.com.

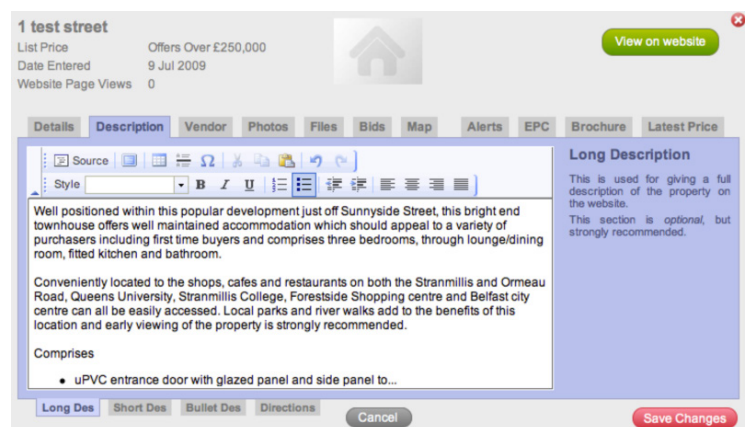

ADD A NEW DEVELOPMENT

- The next page simply shows you the agent or agents selling the development. Click Finish to move on to the next step. You have now added the development as a whole, you now need to add the property types and individual units.
- You will find yourself back on the Development List page at this point. To add a property type click on the black Add a Property Type button on the development.
- Fill in the details of the Property Type. Please note that this is the description of the particular property type, and not of individual properties or the whole development.

Note: Neither the Tag Line nor the Negotiator are necessary fields, please ignore these.

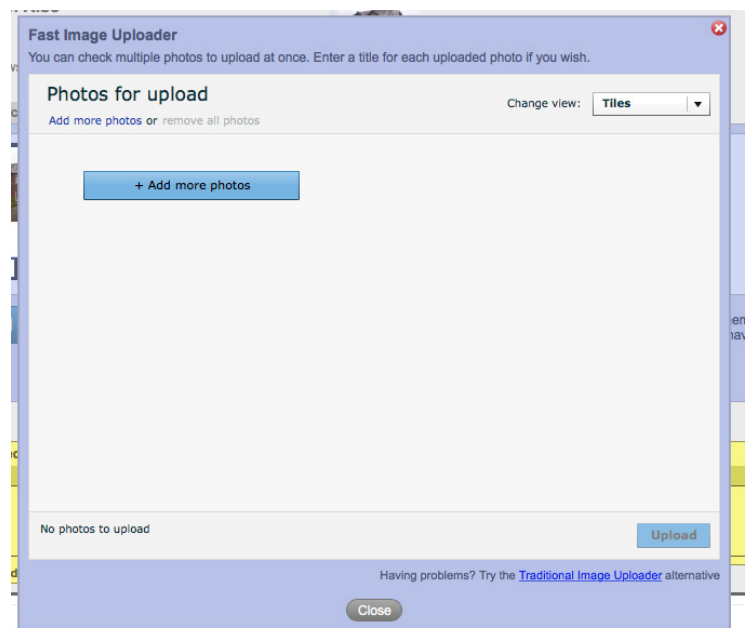

- The following page is the Property Type description. This is a free text box which allows you to type directly into the box or to copy and paste text from another document. When you are happy with the layout etc, click Next.

TIP: It may be easier to use CTRL & V instead of right clicking to paste.

ADD A NEW DEVELOPMENT

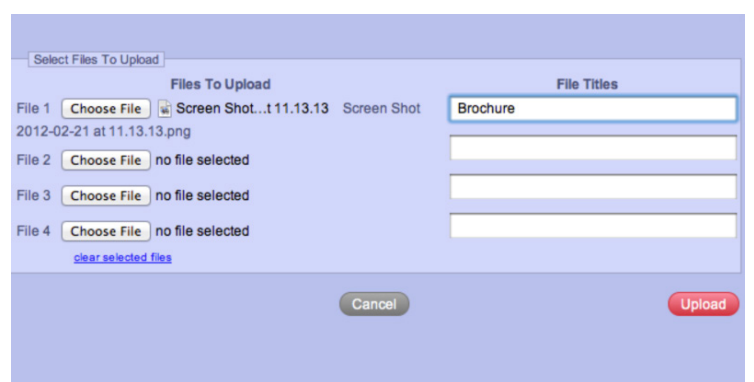

17. To upload photos of the property type click on the Upload Some Photos button. This will open a pop up for the Fast Image Uploader. Click on + Add more photos, then locate the relevant file where the photos are stored. You can either double click on a photo to upload it or, if you are uploading several photos, hold down the shift key on your keyboard and click on multiple photos. Once you have made your selection (as many photos as you like) click Upload. This will re-size the photos appropriately.

18. Once the images are uploaded you may find that they are not in the order that you would like them in. To re-order them you simply drag and drop them into the correct order. Please note that the Primary image is the first image that will be seen on the website. When you are happy with the order, please click Next.

19. If you have added the Development Brochure on the development, you probably will not need to add it again here. This is where you will upload PDFs of the individual house type brochures or any relevant floor plans. To upload, simply click on the Upload PDF Files. This will open a window where you can choose your files. You will be required to specify names for these files when uploading. Brochure, or Floor Plan, etc will suffice.

ADD A NEW DEVELOPMENT

20. The next page is where you add the individual units or properties. Click on the Add a Property Unit button.

2	2	Test Street	£129,950	Circa 800 sq.f	Sale Agreed	more info

21. Fill in as many details as you have on this page, and click Finish when you are happy with your selections.

Note: It is not necessary to add the postal number, unit number or postcode here, please ignore!

22. To add another property unit click again on the Add a Property Unit button, this time click the Copy Last Unit Added button. This will copy all the details from the last unit except the Site or Postal Number. Repeat this step until you have all your Property Units added.

NEW DEVELOPMENTS

MY AGENCY IS JOINT ON A DEVELOPMENT - HOW DO I ADD US TO THIS?

To add yourselves to an existing new development, please follow the steps below.

1. Login to the PropertyPal.com back office system and click on Developments at the top of the page.

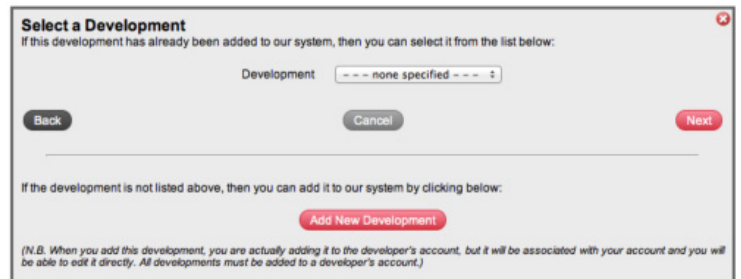

2. Click Add New Development button.

3. Use the dropdown to choose the relevant developer and click Next.

4. If you know the development has already been added by another agent, use the dropdown to find the development you would like added to. Click Next.

5. You have been added to this New Development as a Joint Agent.

Note: The agent who added the development will now receive an email notifying them that your agency has been added to the new development.

HOW DO I REMOVE A JOINT AGENT FROM A NEW DEVELOPMENT?

To remove another agent from an existing new development, please follow the steps below.

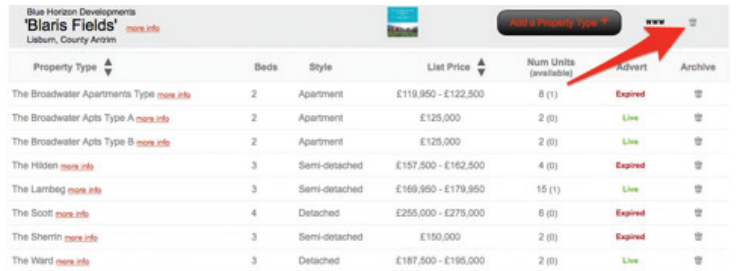

To remove a dis-instructed joint agent from a New Development, please email us at help@propertypal.com letting us know the name of the dis-instructed agent and also the development name.

We will check with the dis-instructed agent that this is the case, and remove them from the development once we receive confirmation.

I AM A JOINT AGENT ON A DEVELOPMENT, HOW DO I REMOVE MYSELF FROM THIS DEVELOPMENT?

To remove your agency from a joint agency development, please follow the steps below:

1. Log into your PropertyPal.com account.
2. Go to Developments, and find the development you need to remove yourselves from.
3. You will see a bin symbol to the right hand side of the development, as per the screenshot below:

4. You will open a pop up with 2 choices; Remove Association and Archive Development. Click Archive Development.

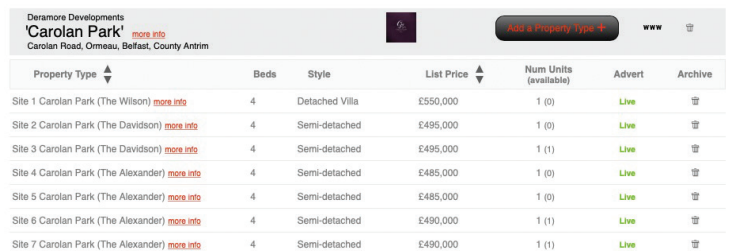

Note: Any remaining joint agents on this development will receive an email letting them know that your agency has archived this development.

HOW DO I ARCHIVE A PROPERTY TYPE WITHIN A NEW DEVELOPMENT?

To archive a property type within a new development, please follow the steps below:

1. Log into your PropertyPal.com account.
2. Go to Developments, and find the development you need to remove the property type from.
3. You will see a bin symbol to the right hand side of the property type, as per the screenshot below:
4. Click the bin and confirm.

The screenshot shows a table of property types for a development named 'Carolan Park'. The table has columns for Property Type, Beds, Style, List Price, Num Units (available), Advert, and Archive. Each row represents a different site, and the Archive column contains a bin icon for each property type.

Property Type	Beds	Style	List Price	Num Units (available)	Advert	Archive
Site 1 Carolan Park (The Wilson) more info	4	Detached Villa	£550,000	1 (0)	Live	🗑

Site 7 Carolan Park (The Alexander) more info	4	Semi-detached	£490,000	1 (1)	Live	🗑

Note: Any remaining joint agents on this development will receive an email letting them know that your agency has archived this property type.

I'VE LISTED A NEW DEVELOPMENT BUT IT ISN'T SHOWING ON THE SITE, WHAT DO I DO?

There are a few reasons that your new development may not be showing live on PropertyPal, I have listed these and the solutions below:

1. I have uploaded the New Development to our Property Management Software but its not feeding through to PropertyPal.

This is because all New Developments must be manually added and updated on PropertyPal. New Development properties cannot be fed through in the same way that resale properties are. Please login to your PropertyPal account and upload the development manually. If you are unsure how to do this, please email us on help@propertypal.com.

2. I have uploaded a New Development as "Coming Soon" but it is not showing on PropertyPal.

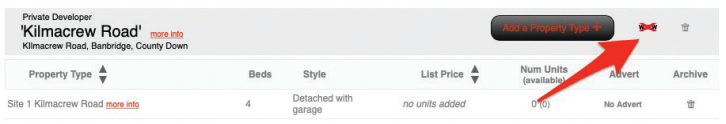

Please check your upload to ensure you have added at least one property type and individual site to the development. If you do not have any of the property details at this stage, please add a Property Type as Coming Soon and mark the pricing as POA. You will also need to add at least one unit to the property type and ensure you have clicked the Advert Tab and advertised the development on PropertyPal.

3. I have uploaded a New Development, added Property Types and Units but it is still not showing on PropertyPal.

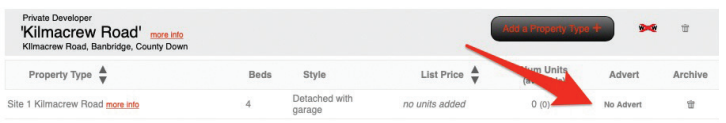

Please ensure that the Development, Property Types and Units are all marked as "Show to the Public". You will be able to see that these are hidden on the property list, if there is a red X though the www!

Also please check that you have advertised the property types on PropertyPal. You can check this by clicking on the Property Type, then going to the Advert Tab. You will see when the advert was placed live here.

If you have checked all of the above and still cannot see why the Development is not showing on PropertyPal, please email us on help@propertypal.com

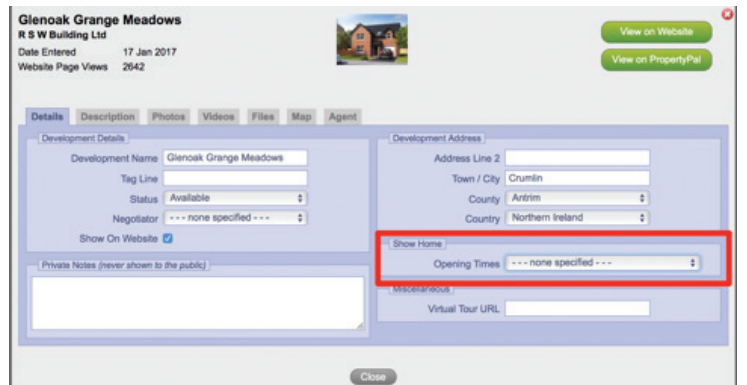

Property Type	Beds	Style	List Price	Num Units (available)	Advert	Archive
Site 1 Kilmacrew Road more info	4	Detached with garage	no units added	0 (0)	No Advert	

Property Type	Beds	Style	List Price	Num Units (available)	Advert	Archive
Site 1 Kilmacrew Road more info	4	Detached with garage	no units added	0 (0)	No Advert	

HOW DO I ADD A SHOW HOME OPENING TIME?

1. Log in to your account, go to Developments, and find the development you wish to add the show home opening time to.
2. Click 'more info' on this development.
3. Please select the preferred Show Home Opening Time from the 'Opening Times' drop down option.

Note: If the show home opening time you wish is not there, please contact us and we will add this in for you.

IT IS NOT POSSIBLE TO ADD A DATE HERE, JUST A DAY AND TIME.

I HAVE A NEW DEVELOPMENT THAT I REALLY WANT TO PUSH, CAN PROPERTYPAL HELP ME?

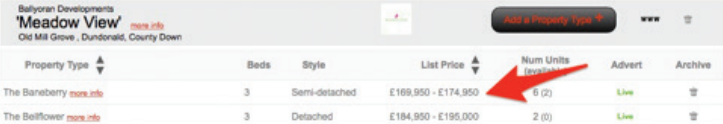

There are a variety of features on our website specifically to boost a New Development. Please contact us on help@propertypal.com and we will come back to you with the details.

THE PRICES ON ONE OF MY PROPERTY TYPES ARE SHOWING INCORRECTLY, HOW DO I FIX THIS?

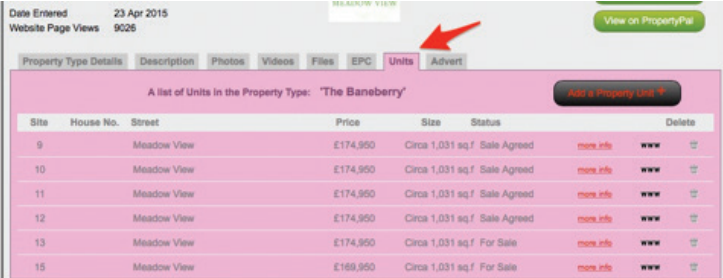

The pricing on a new development or property type within a new development is taken from the units on the development.

To change this pricing, please follow the steps below:

1. Log into your PropertyPal.com account.
2. Go to Developments, and find the development you need to change the pricing on.
3. Locate the Property Type with the incorrect pricing on the list as per the screenshot below and click more info on the appropriate Property Type:
4. Go to the Units tab and locate the unit with the incorrect pricing:

Property Type	Beds	Style	List Price	Num Units (available)	Advert	Archive
The Baneberry more info	3	Semi-detached	£169,950 - £174,950	6 (2)	Live

5. You can either click More Info on the unit and change the price so that it reads correctly, or you can delete the unit by clicking the bin on the right hand side of the list to remove it completely.

HOW DO I RE-ACTIVATE AN EXPIRED PROPERTY TYPE OR NEW DEVELOPMENT?

1. Log in to your PropertyPal account and click on Developments at the top of the page.
2. As you scroll down your list of developments you will see the Expired property types marked in Red and the property types about to expire marked with a green triangle beside Live as per the screenshot below:
3. To reactivate the property, click more info on the property type and click on the Advert tab as per the screenshot below and click the button to relist the property type:

HOW DO I EDIT A NEW DEVELOPMENT?

To edit a New Development you first need to check whether the change you would like to make is on the Development Overview (in the New Homes section of the website) or on the Property Types (these show in the Properties For Sale section of the website). Once you have checked this, please follow the steps below:

1. Login to your PropertyPal account and click on Developments at the top of the page.

2. Locate the Development you would like to edit from the Development list.

To Edit the Development Overview Page

1. Click on More Info beside the development name as per the screenshot below:

HOW CAN I ADD A VIDEO OR VIRTUAL TOUR TO MY DEVELOPMENT ON YOUR WEBSITE?

We have 2 methods of uploading a video to a New Development, depending on the format of the video.

If you have been sent a URL from your photographer please follow the steps below:

1. Log into your PropertyPal.com account.
2. Go to Developments, find the Development that you need to add the video and click More Info.
3. On the Details page you will see a field for Virtual Tours as per the screenshot below. Simply paste the URL for the video into this field and save your changes.

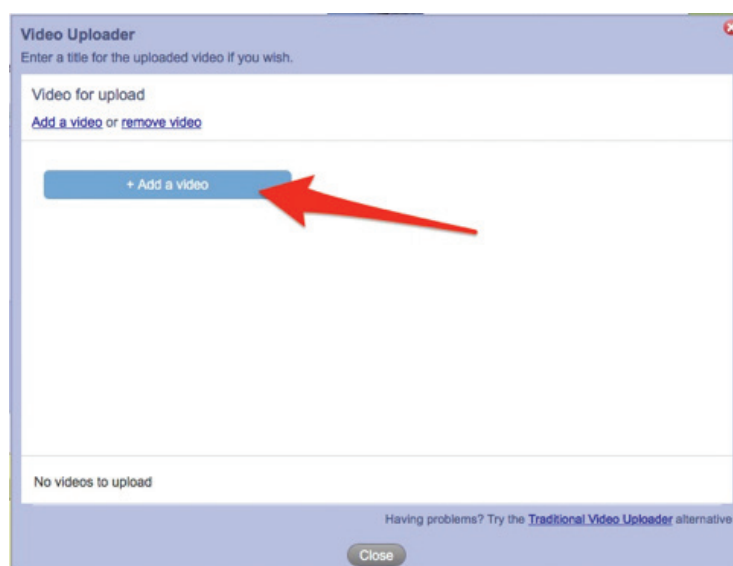

Contact help@propertypal.com if your link is not accepted.

4. To upload a video file click Upload a Video, then Add a video. You will be taken to the file system on your computer where you can then choose the video to upload.

Note: It may take a few minutes for the video to upload to the server depending on the size and format.

THE SYSTEM WILL NOT ACCEPT VIDEOS OVER 200MB

HOW DO I HIDE A NEW DEVELOPMENT?

1. Log into your PropertyPal.com account.
2. Go to Developments, find the New Development that you need to hide and click More Info.
3. On the Details page you will see a tick box labelled "Show on Website"
4. Untick this box - this hides the whole development from Public View.
5. When you are ready, just tick the box again!

The screenshot shows the 'Edit Development' interface for 'Annahill Gate'. The 'Show On Website' checkbox is checked. The 'Most Recent Activity' table is as follows:
